

DataCAD 6

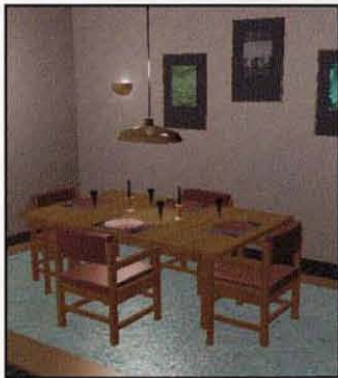

Workstation quality software at an unbelievable PC price.
Enjoy easy-to-use top-rated architectural software that doesn't cost a fortune.

For the Home User...

DataCAD® 6 is perfect for the do-it-yourselfer!

If you have little or no prior experience using a CAD system, creating new designs may have seemed intimidating in the past! Look no more! You can eliminate frustration and achieve outstanding results with **DataCAD 6**...the home improvement software.

With the introduction of a brand new icon toolbar, **DataCAD 6** is easier than ever to use. Just imagine the next step in your project, and point and click on the appropriate icon. It's that simple! Customize the toolbar to display the icons you use most frequently.

You will be able to accurately draft and design your new family room, deck, or garage. From small projects like a new office floor plan to big projects like remodeling your kitchen, DataCAD has specialized tools to make the job easy. With DataCAD Estimator, a new add-on module, you can project the cost and materials of your new project and save a bundle in the long run! **DataCAD 6**—what a value at U.S.\$149.95.

“ I re-built my house with DataCAD after it was destroyed in the LA earthquake. I even designed the interiors, complete with furniture. With DataCAD, I was able to visualize my designs and catch a design flaw early in the cycle before any construction began. ”

Bill Reinert, ALLIED ASID, SDSA, Los Angeles

For the Architect...

“ **DataCAD helps us work smarter. It should be in the hands of every senior architect! It has changed the way we do business. We can make design changes on the fly for clients and get them to approve modifications while the decision makers are in the room.** ”

Curtis B. Wayne, RA, NCARB, Wayne Architects, P.C., Greenwich, CT

From the apprentice to the expert architect, you will feel right at home with **DataCAD 6**. A premier, award-winning software program among architectural designers, **DataCAD 6** allows you to professionally draft, preview, edit and prepare precision layouts. Design a floor plan in 2D, preview and “walk-through” the model in 3D, then make changes on the fly in 2D or 3D!

More than just a drafting tool, this DataCAD version boasts a new photorealistic rendering tool that will place you ahead of the competition. You will control the lighting, cast shadows, and apply texture maps to create a compelling, 24-bit color image of your latest design. By visualizing a project in advance, you and your client can agree on changes earlier in the design process. This saves time and money for both of you! **DataCAD 6** is a powerful sales tool to market your services.

Precision, speed and visualization, the key ingredients of **DataCAD 6** and your success.

For the Builder...

With exciting new features for the builder/contractor, **DataCAD 6** is the standout in the field of architectural software. Load **DataCAD 6** on your portable PC notebook and take it right to your building site!

Increase productivity and improve your design capability with “**Frame-It**,” the newest addition to the **DataCAD 6** line-up. This impressive utility introduces automated framing for walls and floors. Draft your floor plan, then “**Frame-It**.” Watch the system walk around the selected walls, locating the doors and windows, then nail together the wood framing. What an awesome sight in a 3D view!

Once the job is done, you can output a file containing the bill of materials, including a complete list of “board feet” for framing. The optional DataCAD Estimator accepts this file and creates a comprehensive estimate for your project.

NEW

DataCAD Estimator

Add-on Module ONLY U.S. \$99

This new package allows the **DataCAD 6** user to generate cost estimates for every aspect of the construction industry. If you are an architect, contractor or interior designer, project the expenses that affect your bottom line with **DataCAD Estimator**.

Feature Showcase

Multi-dimensional power — all in one box.

- ▶ Ready-to-use right out of the box
- ▶ Design and visualize in 2D or 3D
- ▶ Automatic door and window insertion
- ▶ Automated framing
- ▶ Photorealistic renderings
- ▶ Animated walk-throughs
- ▶ 256-color quick shader
- ▶ Landscape design tools
- ▶ Time-saving built-in macros
- ▶ Automatic and associative dimensioning
- ▶ 1,650 professional drawing symbols
- ▶ 23 fonts including hand-lettered fonts
- ▶ Hidden line removal
- ▶ Read/Write DXF data translator

Over the past year, 30,000 new DataCAD systems have been sold worldwide. This versatile design software package is being used for other applications such as:

*Accident Reenactments
TV and Set Designs
Graphics Design and More*

CADKEY

About Cadkey, Inc.

Cadkey, Inc. is a leader in three-dimensional, computer-aided design products for the mechanical, manufacturing, government, A/E/C and educational markets.

All Cadkey products are supported by a worldwide dealer network, training centers, a well-trained technical support staff and a network of user groups.

DataCAD 6 Highlights

The wait is over. Our latest DataCAD software offers impressive new features:

- ▶ Customizable icon toolbar
- ▶ New photorealistic rendering
- ▶ Animated walk-throughs
- ▶ Automated framing utility
- ▶ Layer filter management
- ▶ Improved documentation

System Requirements

Model	PC with a 386/486 microprocessor and math coprocessor
Memory	4 mb of RAM required 8 mb of RAM required for rendering
Disk Space	Recommended 60 mb Minimum of 20 mb for installation
Operating System	MS-DOS 5.0 or greater
Graphics	VGA or high resolution graphics card with 256 colors required

A three-button mouse or compatible digitizer/tablet is recommended. All popular printers and plotters are supported.

Technical Support

After you order **DataCAD 6**, you will receive 30 days' free technical support, product update information and new product announcements. After the first month of free support, you can call your local VAR/dealer or the technical support line for further assistance at a nominal cost.

Our No-Risk Guarantee

Your satisfaction is fully guaranteed for 45 days. Just return your manuals and diskettes to receive a full refund.
